**CHAPTER REFERRED TO IN OTHER SECTIONS**

This chapter is referred to in title 42 section 13451.

**§ 5101. Findings and purposes**

**(a) Findings**

The Congress finds that—

- (1) maintaining viable domestic steel, aluminum, copper, and other metals industries is vital to the national security and economic well being of the United States; and
- (2) the promotion of technology competitiveness and energy conservation in the American steel and aluminum industries by the Federal Government through a program of joint research and development will help maintain viable domestic steel and aluminum industries.

**(b) Purposes**

The purposes of this chapter are to—

- (1) increase the energy efficiency and enhance the competitiveness of American steel,

aluminum, and copper industries by providing Federal incentives for the establishment of public-private sector research and development partnerships to undertake scientific research and development to develop advanced technologies utilizing the expertise of the steel, aluminum, copper, and other metals industries, Government-owned laboratories of the Department of Energy and the National Institute of Standards and Technology, universities, State development agencies, and others; and

- (2) continue steel research and development initiative efforts begun under title II of the Interior and Related Agencies portion of the joint resolution entitled “Joint Resolution making further continuing appropriations for the fiscal year 1986, and for other purposes”, approved December 19, 1985 (Public Law 99-190).

(Pub. L. 100-680, § 2, Nov. 17, 1988, 102 Stat. 4073.)

**REFERENCES IN TEXT**

Title II of the Interior and Related Agencies portion of the joint resolution entitled “Joint Resolution making further continuing appropriations for the fiscal year 1986, and for other purposes”, approved December 19, 1985 (Public Law 99-190), referred to in subsec. (b)(2), is Pub. L. 99-190, § 101(d) [title II], Dec. 19, 1985, 99 Stat. 1224, 1244. The provisions relating to steel research and development are not classified to the Code.

**SHORT TITLE**

Section 1 of Pub. L. 100-680 provided that: “This Act [enacting this chapter] may be cited as the ‘Steel and Aluminum Energy Conservation and Technology Competitiveness Act of 1988’.”

**§ 5102. Definitions**

As used in this chapter—

- (1) the term “Secretary” means the Secretary of Energy;
- (2) the term “domestic company” means a company which is substantially involved in the United States domestic production, processing, or use of steel, aluminum, copper, or other metals and has a substantial percentage of its operations located within the United States;
- (3) the terms “management plan” and “plan” mean the Steel Initiative Management Plan issued on April 1, 1987, by the Department of Energy, which establishes the management framework for the steel research and development initiative, and updates to that plan; and
- (4) the term “research plan” means the Steel Initiative Research Plan issued in April 1988 by the Department of Energy, and updates to that plan.

(Pub. L. 100-680, § 3, Nov. 17, 1988, 102 Stat. 4073.)

**§ 5103. Establishment of scientific research and development program to develop competitive manufacturing technologies and increase energy efficiency in steel and aluminum industries**

**(a) General authority**

The Secretary, pursuant to the authority provided under provisions of the Federal Non-
